

HIGH PRECISION MACHINING

somr.ca

certified AS9100D - ISO 9001:2015

For over half a century, S.O.M.R. has been specializing in precision machining, tooling, and the fabrication of mechanical assemblies. In August 2014, we moved to a new 38,000 sq. ft. modern facility, incorporating 5S and lean manufacturing.

OUR SERVICES

Manufacturing of machined parts, tools, templates, trolleys, hoists and more

OUR TECHNICAL KNOWLEDGE EXPERTISE AND CERTIFICATIONS

OUR EQUIPMENTS

- 5 and 4 axes machining up to 800 mm working envelope. (5 x 5-axis machining centers and 2 x 4 axes)
- 3 axis machining center for smalls and larges pieces (30" x 60")
- High precision CNC Lathe (live tooling)
- Large variety of conventional machines
- Wire EDM
- Water jet cutting (55" x 110")
- Sinker EDM
- Large capacity CNC CMM (Mitutoyo: RYSTA APEX-S7106)
- Paint boot 8' x 12' (Baked liquid paint)

- AS9100D ISO9001:2015
- MACH 3 from Aero Montreal
- High-precision continuous 5-axis cnc machining
- Expertise in machining exotic materials (Titanium, 13-8mo; 15-5ph, etc.)
- Forming
- Great expertise in conventional machining and grinding
- Sheet metal
- Ball bearing Installation (staking and swaging)
- Welding
- ERP/MRP System
- Bombardier VIP Program
- CATIA Programming
